

Three Important Towns Captured By Allied Forces

Chapter 11.

Two members of the provincial legislature and Theodora Lang, National Credit, will meet in London on Humboldt's behalf. The C.C.F. and Frank S. Krynauw of the Liberal party.

It will be a three-way contest in the riding of St. John's. The Liberal candidate is William Byers, C.C.F. and Sala Salome Halderson. Social credit, Miss Halderson said, should be a party of national credit, not independent of any government.

The unofficially estimated total strength of all is 170,000 men.

Montreal Aircraft Plants on Strike

MONTREAL, Aug. 3.—CP.—Workers in three Montreal aircraft plants began leaving their jobs today after their union voted to go on a coast-to-coast hunger walk-out by 1 p.m. M.D.T. the deadline set by the union yesterday.

Shortly after the deadline the workers began leaving their jobs in the plants of Canadian Vickers Aircraft, Northrop Aircraft and Fairchild. The three plants employ more than 20,000.

Given a 3-year contract during their strike.

Reviews War

Social, Economic Collapse
Of Italy Seen by Premier,
Declares Nation Trapped

OTTAWA, Aug. 3.—(CP)—Possibility of "complete political and social collapse" in Italy was envisioned last night by Prime Minister Mackenzie King in a broadcast review of the war.

Churchill Tells
Of Successes
Made in Sicily

By JOSEPH W. GRIGG
Broadcast to the Dominion Bulletin
LONDON, Aug. 3.—Allied armies, smashing forward in Sicily in a general offensive have seized the strong points of Centuripe, Regalbuto and Tricoma on the southern coast of Sicily.

Mr. Churchill announced today, and military observers expected all resistance to be overwhelmed within the next few days.

Once the initial hard core of resistance has been broken, the British said, the mopping-up of the shrinking enemy bridgehead in the southwestern "Gothic" corner of the island would proceed quickly. They indicated that resistance already may be cracking.

MANY DEMOLITIONS
Mr. Churchill told the commons that the British 15th Division had taken Centuripe, 20 miles east of Catania, the Canadians had seized Regalbuto, six miles northwest, and the Americans had captured the junction of Tricoma, 12 miles east of Nicosia and 12 miles from the highway leading down the western slopes of Mount Etna.

Along the east coast below Catania, Mr. Churchill said, the British also were pushing forward in the face of "extensive demolitions."

Centuripe fell to the British after "more very bitter fighting in the zone," he said.

The Prime Minister emphasized that the Sicilian campaign of the 15th group of armies is and has been "throughout" commanded by Gen. Sir Harold Alexander, he paid tribute to Gen. Sir Bernard Montgomery, commanding the Anglo-Canadian Eighth Army, and Lt. Gen. George S. Patton, commanding the American Seventh Army.

MOVE UP TROOPS
Large reinforcements were moved up during the battle in the last few weeks in preparation for the assault on the Italian peninsula in Sicily, Mr. Churchill revealed.

An Italian communication broadcast by the Rome radio said Allied attacks had been extended to the southern sector below Catania, with bitter fighting in progress.

**Yanks Advance
On Munda Base**
By BRYDON TAYLOR
Exclusive to The Dominion Bulletin
ALLIED HEADQUARTERS, Southwest Pacific, Aug. 3.—American jungle troops have reached the eastern edge of the Munda airfield, advancing from 500 to 1,200 yards, with flame-throwers, tanks and artillery, and the weakening Japanese garrison may soon succumb, a field dispatch said today.

A spokesman at South Pacific headquarters reported the Americans had stormed forward for their biggest advance from the east through tough beach defences while other units had occupied part of Biubo hill, a mile north of the landing field.

The attack to seize the New Georgia base in the Central Solomon Islands in its final phase, the spokesman said. The Japanese apparently were making a death stand without attempting a general retreat.

**Telephone Lines
Damaged by Fire**
HALIFAX, Aug. 3.—(CP)—At least 100 long-distance telephone lines leading out of Halifax were damaged yesterday when a fire at the city dump swept up a telephone pole, burning the wires and damaging a through trunk cable. At least 50 of the lines were cut off last night, but it will take until sometime today to finish work on all the lines, telephone company officials reported.

even better, we only a factor's increase has had the blue screen. Even better had ever been.

Canadian forces in the four weeks of war had grown to 750,000 men, "exceedingly well-trained and magnificently equipped."

Canada had become a "prime source of war supplies of all kinds and had trained thousands of air personnel from other commonwealth countries."

"In the Sicilian campaign we are witnessing the fruits of the planning, organization and co-operation which have made all this possible for a nation of 31,000,000 people," Mr. King said.

The first division of the Canadian army, which for so long was in the forefront of British defence, now is in the forefront of the assault upon Europe.

"At the appointed time the entire army will be in action."

Canadian troops in Sicily were fighting with weapons and munitions made in Canada by Canadian workers, supported overseas by

Kiska Island, last Pacific Air foot-hold in the Aleutians, may be attacked by Americans in a quick follow-up of the victory on Attu. This map shows the island's mountainous terrain, the 1,396-foot volcano at the northern end and the enemy installations and buildings on Kiska Harbor that have been U.S. bomb targets.

Young Nazi in Sicily
Digs Graves, Weeps

By HAROLD W. BOYLE
WITH THE AMERICAN 7TH ARMY ON BLOODY RIDGE
ST. LOUIS, July 30.—(AP)—It is a young Nazi soldier who is weeping here today. But there was no doubt about it—the young Nazi soldier was weeping like a spanked child. He stood weeping under an olive tree, and the hands he held were red and raw.

He got the blisters digging graves for slain German soldiers under a character as to the number of American soldiers who captured this ridge yesterday, killing some 150 Nazis on rocky terrain in a bloody battle that gave the hill its sanguinary nickname.

"Germany is lost," moaned the German youth, who, although only 18 years of age, had been in the army two years. "What have people there in life for? They work hard, and all they have to show for it is a bloody battle. It is hopeless. Mussolini and Hitler—they are to blame. They are to blame for all our troubles."

TEARS OF WEARINESS
Tears of weariness, rage and despair trickled down his cheeks. Although he himself cursed Hitler, his attitude could not be taken as an indication of any general feeling of revolt.

Despite his youth, the Nazi prisoner had seen enough of action, and like other prisoners taken on "Bloody Ridge," spoke with horror of the intensity of the two-day bombardment by American artillery.

"He told us it was three times more than Stalingrad," said Capt. Verne Collins, who was with the "Several prisoners said the same thing. They took an awful pounding from the artillery before we pushed them off with rifles, grenades and machine guns."

Besides all his other woes, the young prisoner expressed anger toward his Italian allies.

"Some of their troops began running away from us just before giving up themselves, and they tried to hinder our movements," he said.

**Crack Expects
Col. Drew to Win
Ontario Election**

TORONTO, Aug. 3.—(CP)—John Bracken, national Progressive Conservative leader, who attended a "Victory Day" gathering here yesterday, left Toronto last night to return to Western Canada. Asked to comment on the Ontario election, he said:

"From what I have heard and seen, I would think that Mr. George Drew's (Ld.) George A. Drew, Ontario Progressive Conservative leader, program his party would be likely to be returned with the largest group."

Mr. Bracken will be in Winnipeg Wednesday and will visit Saskatchewan later in the week.

Train Kills Nine
NOKONIS, Ill., Aug. 3.—(AP)—Nine men and 12 horses were killed yesterday when a freight train plowed through the group working on tracks near Okla. man, Ill. Survivors, none of whom was injured, were quoted as saying the group failed to notice the approach of the train.

Canadian armies and some of their landing craft were manned by Canadian sailors.

"Backing them, at home, is the industrial, financial and moral strength of Canada," the prime minister added.

"In Sicily, in the skies over the Mediterranean, in the North Atlantic and the North Pacific, and in the war over the Aleutians, wherever Canada's fighting men engage the enemy, they are bringing honor to themselves, glory to our country, and power and strength to the cause for which we fight," Mr. King said.

And he added: "Every Canadian who, in his part, however humble, to support our fighting men is entitled to a share of the pride in their achievements."

The world's first public libraries were planned in ancient Rome by Julius Caesar.

Big Chance For
Human Advance
After War Seen

RENO, Aug. 3.—(CP)—Ark Walker of Calgary, Dominion president of the Canadian Legion, British Empire Service League, said in an address here last night that the post-war reconstruction period will present an opportunity for the greatest human advancement and happiness civilization has ever seen.

Speaking at the annual convention of the Saskatchewan command, Canadian Legion, Mr. Walker recalled the unpreparedness of the armistice of 1918, and how the war, which began from adversity, found their country almost wholly deserted for their re-entry into civilian life.

PLAN WELL, WISELY
"This war may end as suddenly and unexpectedly as did the last conflict," he said. "It is why the Canadian Legion constantly urges our governments—federal, provincial and municipal—and our leaders in commerce and industry to plan well and wisely now, so that the men and women of our present future shall not be left as were the veterans of the last war."

Mr. Walker said he believed that with the background of experience gained during and after the last war, and with goodwill, the difficulties might be overcome.

CAUSE OF FAILURES
One of the Legion members who won the lessons of the last war and the object failures in dealing with the problem of post-war reconstruction, said Mr. Walker.

CAUSE OF FAILURES
The cause of failure was the result of procrastination, makeshift and mismanagement of parliament, pre-war legislatures and municipalities caught unprepared for the big task which suddenly devolved upon

Final Struggle
For Orel Base
Said Started

By HENRY SHAPIRO
Exclusive to The Dominion Bulletin
MOSCOW, Aug. 3.—(AP)—Front line dispatches said today that the "decisive" battle for Orel has begun and the Red Army was mopping up the last German strong points northeast and northwest of the city.

Three weeks to the day after the Russians stormed the German westward offensive of the war, military quarters said, the capture of the key town here now was a foregone conclusion.

After a few days of relative relaxation for regrouping of forces, the fighting flared up in a new peak of intensity as the Soviet steadily advancing Red Army shook out the last German strong point after another.

3 PRONGED DRIVE
Russian columns were closing against Orel from three main directions—northeast, east and south—and had captured considerably the westward corridor between the points of the assault are hugging the city.

The army group Red Star said the fiercest struggle was going on south of Orel, where the Red Army, intensifying its attacks, drove the Germans from several vital defence positions and occupied dozens of communities.

Foundable German forces were stationed behind Bulzhov, captured last night, 25 miles north of Orel. In a dense network of defenses, they bitterly resisted Soviet efforts to seize the Bulzhov-Rylyevsk and Bulzhov-Karachay highways.

GERMANS RETREAT
The German forces all available for the defense of Orel, reportedly finally ceded to the Red Army pressure and fell back southward.

Alberta Railman
Killed in Wreck

VICTORIA, Aug. 3.—(AP)—Arthur Wether, railway fireman from Drumheller, Alta., was killed today, and Engineer E. Head of Vancouver was injured Sunday when the engine of a Canadian National freight train crashed through a fire-weakened bridge at Mile 32.

The Souke district west of here. Wether, badly wounded by escaping steam, died after being admitted to hospital here. Head suffered neck injury and burns.

An inquest will be held this week.

**Seven War Workers
Killed in Blast**
CLEVELAND, Aug. 3.—(AP)—Seven war workers were killed and eight others injured late yesterday in an explosion at the Ferra Engineering Corporation's East Side plant.

Carl William N. Noble of the army's chemical warfare service, said cause of the explosion was not determined. He said property damage was slight.

AN
ATTESTED
STATEMENT

Because They're Blended From Naturally Cooler Tobaccos

Many smokers confuse taste with strength. Actually the pleasant taste you find in a Buckingham comes from a blend of ripier, more mature tobaccos and this satisfying taste can readily be distinguished from strength, as by proven test Buckingham is the mildest cigarette you can smoke.

Also important is the fact that the ripier Virginia, Burley and Turkish leaves used in Buckingham are scientifically blended to produce a cooler-burning cigarette—a cigarette that is cooler on the throat. Smoke a blended Buckingham and enjoy the taste that satisfies, a mildness that is truly Throat Easy.

Tricks with Franks

Delicious at any time, the 'Frank' is an easy to prepare, economical and nutritionally valuable hot-weather treat.

Good as they are, steamed, spiced, not-mashed, and eaten as a hot soup, 'franks' are much less nutritious when made in this way!

Actually, food consists of vitamins, minerals, and proteins. The vitamins are destroyed by heat.

Good as they are, steamed, spiced, not-mashed, and eaten as a hot soup, 'franks' are much less nutritious when made in this way!

Premier Ernest Manning Urges Fair Trial For Changed Holiday Period

The education system of Alberta was dealt with by Premier Ernest Manning in an address here Monday night. He spoke in continuation of a series regarding provincial affairs. The shortage of teachers, student-absenteeism, the problem of students leaving school before completing their courses, and the changed school year were among topics discussed.

Of the changed school holiday period, Mr. Manning said: "I urge upon you all to give the new Act the legislative bill which has changed the holiday period a fair trial. If it fails to give the needed relief, and if it meets the situation adequately, we will not hesitate to change it at the forthcoming session of the legislature."

Regarding the purpose of education, Mr. Manning said: "Your government in this province under the able leadership of the late Premier Albert R. Brown, set out to make the educational system of Alberta provide a people abundantly happy in their attainment of a high standard of a useful living. Since 1925, as a result of which Alberta is generally considered to be about the best informed people in Canada."

Mr. Manning's complete address follows:

"I consider it a great privilege to discuss tonight education in our province, and it will be a fair trial to place before you a number of very important problems which confront the education of this province. I am sure that together we must contribute to their solution for we have the must if we ever hope to make progress towards the goal of happy living."

DIFFICULTIES GROWING
The news coming out of Germany indicates that in that country educational difficulties are growing by leaps and bounds.

It is quite remarkable to note that the newspapers in Germany have lately been complaining about the lack of personnel in Germany of the younger generation. This condition in the educational system of the people and the machine methods introduced by the Nazis into the educational system of the country several years ago.

GERMANS COMPLAIN
The German press now complains that the young people can't even think for themselves. This is not surprising to Albertans. What else can you expect from youth who have had all their thinking done for them, who have been retrained completely since they were infants, and who now know definitely only one thing—absolute obedience to the ruler who cracks the whip of state, or to army officers who have been their masters for so many years. Young Germans will never have personality for they have never been trained for themselves into educational methods in their country have thought.

This brings me to a consideration of what should be the purpose of education. Your government in this province under the able leadership of the late Premier Albert R. Brown, set out to make the educational system of Alberta provide a people abundantly happy in their attainment of a high standard of living. I am sure that together we must contribute to their solution for we have the must if we ever hope to make progress towards the goal of happy living."

TEACH TO THINK
We have realized that children must be taught to think for themselves and to launch out on their own.

educational problems. They are focusing the attention of many of our people upon the possibilities of education if we are to have the educational system which is an necessary to democratic advancement. And just recently under the leadership of the Adult Education Council for Alberta, This brings to the attention of the educational agencies in the province for the purpose of building, adapting, and putting into effect a program of adult education which will improve the understanding of those of our people who are beyond school age, and who are currently seeking enlightenment regarding problems raised as a result of the war, and problems which must be solved if we are ever to have a satisfactory permanent peace and a secure and happy future for our people.

SERIOUS PROBLEMS
And now, although we have been able to make considerable progress in our education and we are determined to make even more and greater progress, we are presently facing a number of serious problems that tend to retard us in our efforts to make progress. These problems arise out of the war situation. With all our power and our will, it would be too much to expect that our educational system should not be adversely affected to some extent by the war.

The first of these serious problems is that of teacher supply. We have not yet been able to realize the importance and the result of their war of salary, lay away behind what they are able to earn in many other available occupations.

IS EMPHASIZED
The second of these serious problems is that of teacher supply. We have not yet been able to realize the importance and the result of their war of salary, lay away behind what they are able to earn in many other available occupations.

MORAL SUBSTITUTE
The third of these serious problems is that of teacher supply. We have not yet been able to realize the importance and the result of their war of salary, lay away behind what they are able to earn in many other available occupations.

Two Are Hurt In Accidents City Streets

Two persons were admitted to hospital following accidents Monday afternoon. They were Charles Munton, Royal George hotel, who was thrown from his bicycle as he rode down the street hill about 1:40 p.m., and was knocked unconscious; and Mrs. Lena Zukavsky, 78 years old, 1215 84th street, who was injured by a team of horses being driven by Oscar Vandenberg, 58 street at 122 avenue and 64 street, about 6:10 p.m.

Munton was found in an unconscious condition by Mrs. M. Macdonald, 9719 106th street, who notified police. She stated that she had heard a crash in front of her house and upon going out found the man and his bicycle in the centre of the road.

Together with W. H. Harrison, 9719 106th street, who also told authorities he had heard the crash, he helped remove the unconscious man to the Macdonald home. Dr. E. Stieve was notified and ordered him taken to St. Mary's hospital. He was regaining consciousness when a Smith's ambulance arrived.

YOUTH'S SEE ACCIDENT

Two youths, Ian Macdonald, of 9719 106th street, and Bruce O'Connell, 9720 106th street, said they had seen the cyclist coming down the hill when his bike blew off. As he applied the brakes and turned his head to look back, the front wheel struck a large rock, causing the cycle to veer and the driver, in falling to the ground, landed on his head.

Intercepted at the hospital, Munton was found to have received a laceration over the left eye, scratch on top of his head and abrasions on his arms. He stated he could not recall what had happened.

Oscar Vandenberg told police that he was driving a team of horses hitched to a demoral and about to turn east on 122 avenue, when he saw Mrs. Lena Zukavsky walking east on the north side of the avenue. The road was narrow at that point, he said, and he attempted to pass the woman on the right side, but apparently he did not swing far enough over and as the pedestrian fell, he stopped the team.

GIVES VERSION

Mrs. Zukavsky, who spoke to English, stated through an interpreter, she had been walking east and the first thing she knew one horse had knocked her down and walked over her. "I saw two wheels of the demoral run over her."

First international football tournament was held at Greenville, N.J., in 1906.

Charles Munton was admitted to hospital following accident Monday afternoon. He was thrown from his bicycle as he rode down the street hill about 1:40 p.m. and was knocked unconscious.

United Nations Have Best Air Force in World

The United Nations have the best air forces in the world, both qualitatively and quantitatively, and while the war is probably a long way from being won there is no doubt that the Allies are in their winning stride.

That was the summation of the present situation in embarking Europe given in an interview to The Edmonton Bulletin by Lt. Col. D. P. McIntyre, D.F.C., who holds the Distinguished Flying Cross and is both British and the United States.

The stocks, blue-eyed pilot of four-engine bombers, who hails from East St. John, N.B., is an Edmontonian visitor for a few days. He is spending a month's furlough home after serving for two years in Britain and the Middle East.

He went to Britain D.F.C. for a daring low level attack on shipping on the coast of Norway in April, 1942. His Halifax bomber was shot down in flames on this raid and he escaped across Nazi-held Norway to Sweden and later made good his return to England after a period of recuperation.

In Africa, The United States Distinguished Flying Cross was awarded in a raid on Benghazi, when serving with an R.A.F. squadron at the base of the 8th Bomber Squadron, Air Force in the Middle East.

Dr. E. Stieve said the idea of a tank in the air was as good as with the highly dangerous attitude to take. It is going to be hard, very hard, but we are doing well at the moment, Lt. Col. McIntyre said.

While doing with the U.S. 8th Air Force, the R.A.F. personnel attach to be in the air. That is, a highly dangerous attitude to take. It is going to be hard, very hard, but we are doing well at the moment, Lt. Col. McIntyre said.

There is only one air force. It is the Allied air force. It is impossible to say where the R.A.F. stands and the U.S.A.F. stands in the Mediterranean area.

About the crash in Norway, and subsequent escape, through Nazi-held Norway, Lt. Col. McIntyre said he did not know.

Neither did the aerial captain who he reached England from Sweden after being shot down. The British D.F.C. was awarded for the low level attack on shipping and for the subsequent escape, he explained.

As to the British Commonwealth Air Training Plan, Lt. Col. McIntyre said:

"The proof of any putting in the ratings. We are doing a good job on our training methods must be that is the way to the GREAT EQUIPMENT."

American equipment is magnificent, he said. The Liberator Force by the R.A.F. in the Middle East carry a bomb load equal to any British bomber in that area.

"Most of the aerial equipment in the Mediterranean is American," he said.

Air warfare technique is advancing rapidly that what I saw two months ago is still valid now, he explained.

FIRST TRIP WEST

Lt. Col. McIntyre, who is an A.C. This is his first trip to West.

After being over a whole lot of the world I think Canada is the most beautiful, he said.

The officer is being loaned R.C.A.F.

Wounded in Action 12,000 Attend Second Annual Model T Races

Continued from Page Nine

Dr. E. Stieve, who was the British Men's Shop, in the second race, and Ted Reynolds, in the third event. Winners were paid \$80 for first place in the first three events, \$40 and \$20 in the final, \$10 and \$5.

Placing second and third were Sgt. Ewart (R.A.F.) and Maurice Howell, Reliable Printing Company, in the first event. Ted Reynolds, in the third event. Winners were paid \$80 for first place in the first three events, \$40 and \$20 in the final, \$10 and \$5.

Three of the contestants were of 18 years, or 30 times across the track, one of seven and a half miles.

Outstanding performances were given by Vern Chubb, who had a time of 15 minutes in the first event, and Ted Reynolds, who had a time of 15 minutes in the first event.
